## **LOUDSPEAKERS**

## **MEYER UPQ-1P SELF POWERED SPEAKER**

The self-powered UPQ-1P wide coverage loudspeaker is a member of the award-winning UltraSeries family of loudspeakers. Its extended low-frequency headroom gives it a smooth sound over its wide operating frequency range of 55 Hz to 18 kHz. With its easy-to-use and versatile QuickFly rigging, the UPQ-1P loudspeaker is equally suited to touring, rental and fixed installation applications.
