MIXING CONSOLES

AVID VENUE S6L-32D CONTROL SURFACE

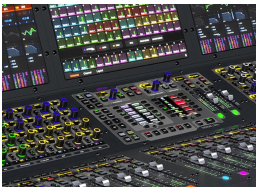

S6L provides you with class leading extensive mix control

VENUE has long been one of the most requested live mixing systems in the world. And now the legacy continues with VENUE | S6L. Gain unprecedented processing capabilities with over 300 processing channels. Get unrelenting performance and reliability through its advanced engine design. Mix faster and easier through modern touchscreen workflows. And work with way more plug-ins and Pro Tools track counts than ever before. When you need to present the best mixes possible, S6L delivers unmatched power, clarity, and customization to meet the demands of any gig.

Sporting four multi-touch screens, four banks of eight faders, and three banks of 32 knobs, the VENUE | S6L control surface gives you the extensive mix control that modern live sound mixing demands. The Master multi-touch screen gives you access to the Universe and other pages for main output processing, mix and matrix routing, and many other parameters. A trio of Channel Touch modules provide you with Meters view, various Channel views, and Parameter view. The Master Live central module gives you all the functions you need in a mixers master section; fader banking, monitoring, recallable fader layouts, user-assignable flex-faders, and more, including a dedicated transport section for easy recording control. Each Channel Fader module gives you eight faders with channel and dynamics meters and channel name displays all with easy-to-see high-resolution OLEDs. Youll also have all of the usual channel controls you need at your fingertips including mute, solo, and safe functions. For total control of your sound, the Channel Knob modules provide 32 touch-sensitive, tri-color encoders for parameter control, individual OLED displays, a switch that allows you to select each knob individually, and one that lets you insert or remove a knobs specific parameter from your signal path.

Contained within the package:

- 1x E6L
- 1 x AVB192
- 1 x HDX192
- 1 x 22in Touch screen
- Standard Avid plugins
