

COMMUNICATIONS - WIRELESS

HME 4 WAY DX410 DIGITAL RADIOCOMMS SYSTEM

Complete Kit

The DX410 is a newly designed two-channel digital wireless system, operating in the 2.4GHz band, that delivers an overall better experience in performance, range and sound. The system features 7kHz wideband audio, 2-wire and 4-wire bridging, and 2-wire auto-nulling for fast integration with Clear-Com or TW wired partyline systems.

Comes with:

- 1 x BS410 Base

Station

- 4 x BP410 Belt Pack

- 4 x HS15 Single Sided

Headset

- 1 x AC50 Batter

Charger

- 6 x BAT50

Rechargeable Battery
