COMMUNICATIONS - WIRELESS

MOTOROLA R2 6 WAY SYSTEM

The Motorola R2 is a lightweight, rugged two-way radio designed for professionals who need dependable communication across large and busy event spaces. With loud, clear audio and simple operation, it’s ideal for fast-paced environments like festivals, conferences, concerts, and sporting events. The R2 offers long battery life, excellent range, and reliable performance, even in noisy or outdoor conditions, making it the perfect solution for event organisers, security teams, logistics crews, and production staff who need instant, hassle-free communication.

Loud, Clear Audio: Advanced noise cancellation ensures crystal-clear voice quality, even in loud environments.

All-Day Performance: Long-lasting battery (up to 26 hours) keeps your team connected from build-up to breakdown.

Rugged & Weather-Resistant: IP55-rated to handle dust, rain, and drops—ideal for indoor and outdoor events.

Simple to Use: Lightweight, easy to operate, and compatible with analogue systems.

Flexible Accessories: Available with earpieces, headsets, and remote mic for discreet use by security or front-of-house staff.

Kit comprised of the following:

6 x Motorola R2 Walkie talkies
1 x 6 Bay Charger

Additional accessories are available on request
