KENWOOD NX 1300 6 WAY SYSTEM

KENWOOD

The Kenwood NX-1300 is a tough, versatile two-way radio built for professional use in dynamic and demanding environments. With clear voice transmission and straightforward controls, it's perfectly suited to busy event settings such as festivals, exhibitions, corporate events, and live productions. The NX-1300 combines durability with dependable performance, offering great range, excellent battery life, and compatibility with both analogue and digital systems—making it a reliable choice for event organisers, security teams, logistics staff, and production crews alike.

Loud, Clear Audio: Delivers strong voice clarity with Kenwood's signature audio processing—ideal for noisy environments.

Long Battery Life: Up to 14–17 hours of operation, depending on usage and battery type.

Rugged & Event-Ready: Built to MIL-STD-810 and IP54/55 standards, offering resistance to dust, water, and drops.

Flexible Compatibility: Supports both analogue and digital (DMR) modes—ideal for mixed-radio fleets or transitioning systems.

Easy to Use: Lightweight design with simple controls and voice announcements for channels and status.

Accessory Options: Can be paired with earpieces, headsets, or speaker mics for discreet, hands-free operation.

Kit comprised of the following:

6 x Kenwood NX-1300 Walkie Talkies
1 x 6-Bay Charger
