MICROPHONES

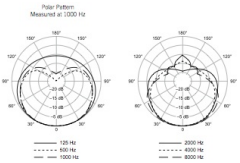

SHURE SM58 DYNAMIC CARDIOID MICROPHONE

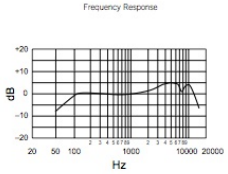

The legendary Shure SM58 vocal microphone is designed for professional vocal use in live performance, sound reinforcement, and studio recording. Its tailored vocal response for sound is a world standard for singing or speech. A highly effective, built-in spherical filter minimizes wind and breath pop noise. A unidirectional (cardioid) pickup pattern isolates the main sound source while minimizing unwanted background noise.

Rugged construction, a proven shock-mount system, and a steel mesh grille ensure that even with rough handling, the SM58 will perform consistently, outdoors or indoors.

Features:

• Frequency response tailored for vocals, with brightened midrange and bass rolloff

• Uniform cardioid pickup pattern isolates the main sound source and minimizes background noise

• Very Reliable

• Pneumatic shock-mount system cuts down handling noise

• Effective, built-in spherical wind and pop filter

• Cardioid (unidirectional) dynamic

• Frequency response: 50 to 15,000 Hz

Applications:

• Theatre

• Conference

• Rock n Roll

• Live Event

• Houses of Worship

• Hire Companies

• Leisure Facilities
