MICROPHONES

SENNHEISER MKH800 P48 VARIABLE CONDENSER MICROPHONE

Extended frequency response up to 50 kHz
• Wide, flat frequency response
• Exceptionally low inherent self-noise, wide dynamic range
• Switchable pre-attenuation, switchable roll-off filter and switchable treble emphasis
• Transformerless and fully floating balanced output
• LED for on-axis alignment
• Anodised light metal body

The MKH 800 condenser microphone is the first microphone to fully utilise the wider frequency response and dynamic range of the new high bitrate standard of advanced digital recording systems (for example SACD). Featuring five switchable pick-up patterns, the MKH 800 is a superior microphone for any recording application, offering high clarity and the absolute minimum colouration.
