MICROPHONES

SENNHEISER MKH70 RIFLE MICROPHONE

The MKH 70 is a lightweight long gun microphone. Its excellent directivity is particularly suited to applications undertaken in difficult conditions, such as high background noise and distance microphone positioning. Its frequency-independent directivity prevents sound colouration from off-axis sound sources.

Features:
• Extremely low inherent self-noise
• High sensitivity
• High directivity throughout the whole frequency range
• Transformerless and fully floating balanced output
• Infra-sonic cut-off filter
• Symmetrical transducer technology ensures extremely low distortion
• Switchable pre-attenuation, switchable roll-off filter and switchable treble emphasis Rugged and weather-proof

Applications:
• Theatre
• Conference
• Cinema
• Rock n Roll
• Live Event
• Theme Parks
• Houses of Worship
• Leisure Facilities
• Voice Evacuation
• Stadiums
