MIDI

MIDI SOLUTIONS 4/1 MIDI QUADRA MERGE

MIDI Solutions Quafra Merge

The MIDI Solutions Quadra Merge merges all MIDI messages appearing at its four MIDI inputs to its one MIDI outputs. All MIDI message types are merged, including System Exclusive, MIDI Clock, and MIDI Time Code messages. A fast merging algorithm ensures that all MIDI data is processed accurately with the minimal possible delay.

The Quadra Merge is MIDI-powered, and requires no batteries or power supply to operate with most MIDI products. A MIDI indicator LED lights up when the product is powered and flashes when MIDI data passes through it.
