

MICROPHONES

SENNHEISER MKH50 SUPERCARDIOID CONDENSER MIC

The super-cardioid MKH 50 offers a higher attenuation of diffuse field and lateral sound than the cardioid microphone. It is principally designed for use as a soloists or spot microphone for applications requiring a high degree of side-borne sound muting and feedback rejection. The directional characteristics are frequency-independent.

Features:

- High rejection of lateral sounds
 - Exceptionally low inherent self-noise
 - Transformerless and fully floating balanced output
 - Symmetrical transducer technology ensures extremely low distortion
 - Switchable roll-off filter to compensate for proximity effects at a distance of approx. 0.5 m
 - Switchable pre-attenuation
 - Black, anodised light metal body
- Applications:
- Theatre
 - Conference
 - Rock n Roll
 - Live Event
 - Leisure Facilities
