OUTBOARD & PROCESSING

TC ELECTRONICS M3000 REVERB PROCESSOR

The VSS3-reverb technology inherent in the M3000 is an industry standard. The M3000 has some of the best sounding, most versatile and easy-to-use professional reverbs for music and film/post applications. Combining ultimate control of directivity in the early reflections with a transparent and harmonically magnificent diffused field, the art of reverberation is brought to a new and higher level. The M3000 enables you to add the softest and cleanest ambience to your work that you have ever heard. Furthermore the processor boasts a wide range of tools and presets to give you the exact vintage or post production reverb you are looking for. With Dual-engine structure enabling two simultaneous reverbs or effects, award winning intuitive user-interface, 600 factory presets and multiple I/O formats, the M3000 is one of the best reverb choices for high-end music, theatre and film/post-production.
