LOUDSPEAKERS - SUB BASS

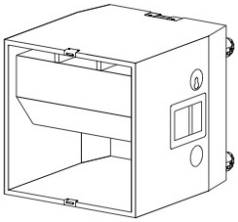

d&b audiotechnik C4 SUB BASS SPEAKER

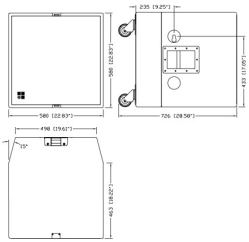

The C4-SUB is a bandpass subwoofer with a rich, punchy sound, specifically designed to match the C4-TOP and extend the C4 frequency response down to 50 Hz. Its cabinet shape, size and flying arrangements are totally compatible with the C3 and C4-TOP. The C4-SUB cabinet is constructed from marine plywood and has an impact resistant paint finish, steel handles and MAN CF4 stud plate rigging points. There are fittings at the top and bottom for securing an optional transport lid, and mounted on the rear panel are ratchet strap guide plates, two hinge plates and four heavy duty wheels.

Amplifiers

The C4-SUB can be driven either by d&bs D6 or D12 dual channel power amplifiers configured for the C4-SUB. More detailed information on specific loudspeaker setups with d&b amplifiers is available either in the relevant loudspeaker or amplifier manuals.

C4-SUB cabinet dimensions in mm [inch]

Features:

- Max. sound pressure (1 m, free field) with D6 / D12
- 131 / 135 dB SPL 18 inch driver
- Cabinets per channel D6 / D12
- 2
- Dimensions mm (h x w x d) 580 x 580 x 620
- 48kg
