MICROPHONES

SENNHEISER MKH40 CARDIOID CONDENSER MIC

Features:
• Maximum front-to-back ratio
• Exceptionally low inherent self-noise
• Symmetrical transducer technology ensures extremely low distortion
• Transformerless and fully floating balanced output
• Switchable roll-off filter to compensate for proximity effects at a distance of approx. 0.5 m
• Switchable pre-attenuation
• Black, anodised light metal bodv Applications:
• Theatre
• Conference
• Rock n Roll
• Live Event
• Leisure Facilities

The MKH 40 has a large number of applications, for example as a main microphone, especially in lightly reverberant or acoustically less perfect rooms, with instrumental groups or for speech applications. Its wide-angled, neutral directional characteristics and high level of reverse attenuation ensure an exceptionally balanced sound.
