PANASONIC 1/3in WV-CP480/500/604 COLOUR/B&W CAMERA

Camera only - requires lens

The WV-CP500 Super Dynamic 5 Day/Night Camera comes with ABS (Adaptive Black Stretch), i-VMD (intelligent-Video Motion Detection) and ABF (Auto Back Focus) compensation technology. With a high resolution of 650 TV lines typical (Colour mode) and 700 TV lines minimum (B/W mode), the WV-CP500 also features a high sensitivity Day/Night function of 0.3 lux (Colour), 0.04 lux (B/W) at F1.4 and an IR cut filter which switches on/off to enhance the sensitivity in B/W mode. The WV-CP500 also comes with a 3-dimensional colour conversion function for natural colour reproduction even in lower colour temperature situation.

Please note that this camera is not supplied with a lens. This needs to be hired separately.

Features:
• High resolution: 650 TV lines typical (Colour mode), 700 TV lines minimum (B/W mode)
ABF (Auto Back Focus) ensures easy installation and stable focus in both colour and B/W modes.
