

MICROPHONES

AKG SE300B w/CK91 CAPSULE CARDIOID CONDENSER MICROPHONE

This system is designed for excellent audio quality and maximum flexibility. Its robust Modulock bayonet coupling allows quick and easy changing of the capsules. The state-of-the-art electronics design ensures high RF immunity in critical environments. The SE300 B provides a switchable bass roll-off/attenuator with three positions: flat, 75Hz and 10db attenuation.
